Custom Etch Letters and Numbers

The Cannondoor range of Custom Etch Letters and Numbers is available in a range of 4 standard styles (and 5 typefaces) ranging from traditional to contemporary and make a striking statement whether used in the door glass itself or in the sidelights/toplights.

We offer standard sizes for many of our most popular door configurations and also offer a custom size service for use in Toplights, Sidelights and for other door glass sizes.

Our range of styles have clear numbers on a sandblasted background, but negative versions with sandblasted characters on a clear background are also available.

All our custom etch designs are produced using sandblast techniques and with our computer designed 'resist' cutter, we can ensure perfectly created letters and numbers every time.

Once the design is created, it is then incorporated within a high performance insulated glass unit using warm edge spacer and low E glass. For sidelights and areas where extra security may be required, we also offer the range in our Security+ laminated glass units.

Technical Specifications

Cannondoor Products

Manufactured using grained and smooth impact-resistant GRP SMC skins and available in a wide variety of styles and colours including wood stains. Sills and Rails are manufactured from a water-resistant pure PVC polymer and reinforced using LVL (laminated veneered lumber) timbers with a minimum density of 570 kg/m³.

The SMC skins and sub frame door assembly are fully bonded using a Urethane Adhesive Resin.

The door is filled with CFC-Free Polyurethane foam, a superb insulation material which vastly reduces the transfer of heat through the door. With a density 44.5 - 45.5 kg/m³ this provides insulation that as part of a doorset assembly achieve a U value as low as 0.8W/m²K.

Security

The door slab along with the glazing system are major components of any doorset. The Capstone slab using the SecureDesign board reinforcing and coupled with the Cannondoor glazing cassette systems is a proven combination for achieving a security level to PAS24:2016 the industries enhanced security standard which is a requirement to achieve certification for Secured by Design the police initiative to protect against unlawful entry of a property and Document Q of the Building Regulations.

Door slabs offered by Cannondoor are manufactured as part of the BM Trade Q-Mark scheme for quality, allowing us to have full traceability for all factory processes.

Glazing and Ancillary Options

Frames: Glazing cassettes used to frame out glass are available in four options (door design dependent) and are fully de-glazeable should there be need to change the glass design.

Dentil Shelf (Trafalgar Square): Architecturally correct to enhance the look of the Craftsman style door.

Manufactured from GRP SMC in a wood grain finish to complement the Craftsman door. Screw-fixed into the SecureDesign board and supplied with matching screw hole covers.

Glass

All the double and triple glazed units used in our doors are manufactured to the highest standard and come with recognised accreditations for performance, strength and thermal efficiency.

All units are made with toughened glass which is up to 5 times stronger than ordinary annealed glass and complies with EN12150, the international standard for safety glass.

For an enhanced security option, glazing options can be supplied with an upgrade where the outer pane of toughened glass is replaced with 6.8mm laminated glass comprising of two sheets of annealed glass bonded together with a vinyl plastic interlayer which eliminates any attempt to break through when under attack.

All sealed units are manufactured to the BS EN1279, a standard which guarantees the quality of components and most importantly the seal, which comes with a manufacturer's 10-year warranty.

	Maximum Width	Minimum Width	Maximum Height	Minimum Height

For French Doors, the maximum combined door slab sizes using Winkhaus Fab locking system is 1820mm. Minimum combined slab size 1376mm. Sizes relative to all door slab designs. For Trafalgar doors supplied with a Dentil Shelf, the cylinder position will be no higher than 1350mm from the bottom of the door.

Care and Maintenance

To keep your door in great condition, there is minimal requirement for maintenance. Frequency may depend on surrounding conditions such as a coastal locations or nearby industrial activities.

The following steps should be used as guide:

- Door frames should be washed with warm soapy water, stubborn stains can be removed using specialist PVC-u cleaners and by following the manufacturers' guidelines.
- The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based or abrasive products should be used at any time.
- Glass surfaces should be cleaned with warm soapy water and or a proprietary glass cleaner.
- Hardware can be wiped clean. No harsh chemicals or abrasives should be used as this will damage any protective coating.
- Moving parts should be lubricated with a light engineering oil.
- Maintenance of the door may be required to maintain any guarantees from the installer.

Cannondoor - Door Knocker

The Cannondoor Door Knocker collection brings together traditional and modern designs, all crafted from solid brass or stainless steel. With a reassuring weight, corrosion-resistant finishes, and sizes to suit any door, each model combines timeless style with durability you can trust.

Cannondoor - Door Handles

The NEW Cannondoor handle, crafted from corrosion-resistant grade 304 stainless steel, offers durability and style. With a sprung lever for smooth operation, it suits various door types and is available in three finishes to match Cannondoor stainless steel furniture range.

Choose from seven finishes: Brushed Stainless, Polished Gold Stainless, Polished Stainless, Anthracite Grey, White, Black & Smokey Chrome. It complements Cannondoor stainless steel door furniture range, including door knockers and letterplates, ensuring a fully coordinated and stylish look for your doors with lasting quality and elegance.

The Cannondoor handle is made from high-quality stainless steel, tested for reliability and corrosion resistance, and backed by a 25-year guarantee. Available in seven stylish finishes to complement our door furniture range.

Stainless Steel
High-quality, durable, corrosion-resistant grade 304.

Springed Lever
Captive spring cassette ensures consistent lever return to 90°, preventing 'handle sag'.

Universal
Compatible with left and right-handed doors and common locking systems.

Application
Suitable for PVCu, composite, aluminium, and timber doors, available in a 240mm backplate.

Cannondoor - Letterplates

The Cannondoor letterplate features a sleek design with a matching stainless steel flap and frame, incorporating a concealed operating mechanism. It has been rigorously tested to exceed industry standards, providing over 1,000 hours of salt spray resistance for a long-lasting finish.

Cannondoor letterplates are independently tested to BS6375 for operational reliability and weather tightness, achieving 50,000 cycles under load and BSEN 1670 for corrosion resistance. Backed by a 25-year mechanical and surface finish guarantee, they are available in three finishes for a coordinated look with our door furniture.

Stainless Steel
High quality, long lasting, corrosion resistant grade 304

Weather Sealing
Through a combination of external foam and internal nylon brushes.

Patented Design
Intelligent drainage channel prevents rainwater ingress

Finger Recesses
Both internally & externally, for easy opening

Intelligent Opening
The frame design prevents abrasion against the flap, with a concealed mechanism that opens to 180°.

Cannondoor - Classic Range

Designed For All Doors

The New Cannondoor Handle Collection combines authentic styling with high quality, traditional & modern finishes to suit every door.

Design Detail

Authentic diamond shaped lever tip for a timeless aesthetic

Fully Coordinated

Matching Cannon espag handles and accessories complete the look

9 Suited Finishes

Choose from traditional Cannondoor finishes, as well as contemporary satin or high-quality polished finishes too

Cannondoor - Black Range

Stylish Black Handles and Letterboxes: The Perfect Finishing Touch

At Cannondoor, we understand that the small details make a big difference. Our range of black handles and letterboxes offers a sleek, modern aesthetic that complements any door style, adding a touch of sophistication to your home.

Why Choose Black?

- **Timeless Style:** Black hardware is elegant, versatile, and pairs beautifully with a range of materials, from wood to composite.
- **Durable Finish:** Built to last, our black handles and letterboxes are made from high-quality materials designed to withstand the elements while maintaining their bold look.
- **Low Maintenance:** The matte or gloss finish helps resist fingerprints and smudges, ensuring your entrance stays pristine with minimal effort.

Our Range Includes:

- **Ergonomically Designed Handles:** Available in various shapes and sizes, all crafted for comfort and ease of use.
- **Secure Letterboxes:** Stylish and functional, our letterboxes are weatherproof and designed to protect your mail, while seamlessly integrating into your door's design.

Cannondoor - Tedee PRO Smart Lock

Introducing the Tedee PRO Smart Lock — where design meets intelligent access. Discreet, elegant, and engineered for modern living, the Tedee PRO transforms your front door into a seamless smart entry system. Unlock with your phone or smartwatch, grant keyless access to trusted visitors, and enjoy automatic locking as you come and go.

tedee PRO

Crafted from premium materials, Tedee PRO offers a new level of convenience, security, and style - without compromising on performance.

Secure convenience
is the greatest luxury.

Smart is a lifestyle

Imagine the ease of configuring your home to suit your needs. Whether you choose to turn the heating on or turn the lights off, every home smart device can be controlled and modified with the integration of Tedee PRO. From easy voice control with Siri, OK Google and Alexa assistants, our technology is compatible with various devices to guarantee the effortless and automatic control of home smart technology.

Refine your home comforts

Unlock your keyless world for better security and convenience. Discover true peace of mind with Tedee PRO.

-  Change the way you access your home forever, by **unlocking your door with a smartphone or smartwatch**.
-  Relax as Tedee PRO **automatically secures your home** after leaving and returning.
-  Experience a **hands-free approach to unlocking your door** that is controlled exclusively for you.
-  Manage and handle prompt deliveries when you're out of the house by **unlocking with remote features**.
-  Take advantage of **keyless access permissions** for your family members, friends, and other services.
-  Stay in **control of your property** with three tiers of virtual keys and rely on the smart lock's history feature to monitor who enters and leaves.

From experts to connoisseurs

Trust the mechanism behind the lock. This fusion of locksmithing heritage and futuristic engineering gives smart features the power to control your existing door lock in the most dynamic, secure and reliable way.

Cannondoor - Threshold

The Cannondoor Threshold range offers versatile solutions for various door types and accessibility needs. With a focus on durability and seamless integration, these thresholds ensure both functionality and enhanced performance, making them an ideal choice for any door installation.

In addition to the standard integral frame threshold, several low threshold options are offered, including 15mm and a 54mm low PVC threshold, PVCu frame, and mobility door sill alternatives.

Cannondoor - Hinges

Cannondoor hinges are engineered for strength and durability, ensuring smooth door operation and long-lasting performance. Designed for reliability, they provide secure support for doors of various materials, maintaining alignment and functionality even with frequent use. Perfect for residential and commercial installations.

Cannondoor hinges not only ensure smooth door operation but also contribute to the overall security of your door system. With robust construction and precision engineering, our hinges reduce wear and tear on the locking mechanisms, complementing the performance of Cannondoor lever-operated locks and the Ultion Bolt system.

They are ideal for high-traffic areas, delivering both functionality and security for homes and businesses alike.

SFS produce one of the industry's most advanced hinge ranges to suit PVC & composite, timber and aluminium entrance doors and internal doors for both the residential and commercial sectors, as well as an adjustable window installation for thermally insulated wall structures.

Engineers at SFS develop solutions to meet the high expectations of final customers and architects, often bespoke to specific customer needs. All of our hinges are CE certified, meet security standards such as PAS 024 and are accredited by 'Secured by Design' and satisfy the requirements of the EN 1935 testing guidelines.
